ITERATION 1 - REVIEW

Reviewer - Team 7
Reviewed for - Team 8

Finder	Severity	Kind	Description
Christopher	Open	Extra	Risk 2 and 3 seem to me to be the same thing. Since it's unfamiliar, you will probably have 'unexpected compilation errors.'
Christopher	Minor	Missing	Project Plan 1.i and 2.i could use specificity in what counts as "front end of the data" and "backend" respectively.
Christopher	Minor	Missing	Competitor description: An explanation of why the Flask library is superior for the end product vs. making each page from scratch would be beneficial to the document.
Bhuwan	Open	Extra	The section on the compilation is detail-heavy and difficult to understand without the author's explanation.
Anil	Minor	Missing	Project name of the team is missing.
